No Change in the Rate by Bank o England 'Directors.

[CABLE SPECIAL TO THE EVENING WORLD.] LONDON, Nov. 20.—The regular weekly meeting of the Directors of the Bank of England took place to-day, but they made no change in the bank's rate of discount. The rate of discount in the open market is nominally 7 per cent.

It is stated that the British Government was represented at the meeting of the Argentine committee resterday. The meeting was adjourned until Monday to enable the Continental members to attend, The Rothschilds, the Morgans and the house of Anthony Gibbs & Sons will be represente. on the Committee, which will also include Mr.

Drabble, Chairman of the London and Rive The whole of the three million pounds sent from Paris has now arrived here. There is still two million six hundred pounds due from Sussia, Brazil and Australia.

Country banks show reviving confidence. Acting on the advice given by the Governor f the Bank of England at the joint stock bank neeting, it is expected that the London banks will post notices to the effect that they will continue to grant 'loans on Stock Exchange securities. Perhaps they will go further and ot maist upon the full usual margin of security over and above the cash advance. This will arrest wholesale selling on the Stock Exchange.
